He staggers, barely managing to stay on his feet as the feeling drains away. His hands shake, his knees weaken, and he has to pant for breath.

If a small drop can do that... He smiles to himself at the thought of what the rest of the detective's blood could do, especially after he has finished with her.

Slumping into the nearby chair, he smiles again. The blood is untainted. Whatever vampire had masked the detective's scent before obviously isn't feeding from her. Maybe the vampire doesn't realise just what they had in their possession.

Taking out the other vampire will be easy enough if they intervene—and he has a way to do it without even getting his hands dirty. It will be well worth the risk to obtain his vessel.

This is his last chance. This time he has to get it right.

No more failures.

A skaters dream. Full of♥♥♥♥♥. I hate pixel hunting style games.. Refunded because of the Racenet requirements. Whomever though a persistent online connection was a good thing needs to spend some time alone in a mountain cabin to ponder their life choices.. Eschatos is a 2d bullet hell shmup that fuses oldschool design fundamentals with newschool depth and polish. Unlike many modern shmups, which focus entirely on dodging and esoteric scoring mechanics, Eschatos prioritizes balancing offense and defense with its unique weapon and shield mechanic against unpredictable enemies who's quirky movement makes them as challenging to hit as they are to dodge against.

Players have the ability to shoot a long ranged and powerful straight shot, or a short range but blind-spot covering wide shot. Combining these two attacks allows you to create a shield that destroys bullets and enemies alike, but that must be recharged whilst not in use. Enemies come in waves, and the faster and the more completely you destroy these waves, the higher your score climbs and the faster the games pace accelerates.

Eschatos's weapons are double edged swords. Fire straight too much, and enemies will charge you from the side. Cover your sides for too long with the wide shot, and long range attackers will litter the screen with bullets. The shield itself is as much a weapon as it is protection, not only blocking bullets but allowing you to thrillingly charge straight through enemy attacks to more effectively shoot them, or even ram them. Using it too much however, will result in enemies piling up and overwhelming the player.

Eschatos's unique weapon balance, varied and unpredictable enemies (who's attacks and positions are frequently semi randomized, to encourage fun improvisation and nervy reaction), endearing and innocent sounding soundtrack, rapid pace, and deep scoring system make it a game brimming with personality and fusing the best of both worlds from classic shmups and modern bullet hell. It's one of my top 5 favorite shmups of all time, and I recommend to it to anyone and everyone who likes 2d games.. This is a super cool premise but I am not a fan of the shot drinking mini game.

It was cool at first, but it gets repetitive and boring after a very short amount of time.

The art style is cool.

The story I could get to was pretty fun.

<https://youtu.be/VrTsoxcVDqfU>. I found this game very enjoyable, but I had to put up with a few very annoying bugs/ aspects of the game. If 5/10 is average I would give this a strong 6.8/10

[The monsters and ghosts are really well made. You will come across some cool locations such as forests, lakes, train stations, cemeteries and mazes. If you like horror games youll enjoy this no doubt.](#)

It's a short game, but very nice to play. At the beginning are the puzzle easy, but the later challenging. I enjoyed it very much. also cause the music is relaxing.. This game was great when it came out, and it still is today. There's something fun about trying to build your airline while 3 ruthless AI oppenents try to sabotage your every move....with a smile on their face. Can someone tell me what the spider is for? The postcard? I want to get the laxadives..... So stoked! Saw Last Dream on Kickstarter and joined Steam today just to play World Unknown. It looks super awesome!. Very fun game! A couple bugs, but overall relatively challenging and intense! Needs randomly generated scenarios.

(Devs. When you press the circle-pad in mid-transition to a diferent area, or back to the main room, the ammo magazine glitches and you can't reload.). Sorry to say this developers of Head Shot, but I think your game kinda sucks. Its glitchy and laggy and theres no on online!

Its a 2/10.. This is fun. I beat it in an hour but still recommend it. The graphics are nice, it has good controls, has powerups, and has a global leaderboard for each level (25 total) and overall.
